- PROFESSIONAL
EXPERIENCE
- AI Engineer – Carebox

AUG 2025 - TODAY

 - Designed and deployed multi-step AI agents on WhatsApp integrating LLM-driven workflows with third-party APIs (EverHealth, HubSpot) for telemedicine, pharmacy, and lab services across enterprise clients.
 - Built internal tooling to manage and configure large-scale user bases across multiple enterprise clients, enabling scalable operations.
 - Built an AI-powered pharmacy price comparison agent from architecture to working prototype.
 - Implemented automated decision-making workflows and access control systems, reducing operational friction in patient onboarding.
 - Architected serverless infrastructure (AWS Lambda, API Gateway, S3) to support scalable AI-driven healthcare automation.
 - Translated business requirements into agent architectures and delivered working demos to non-technical stakeholders.

- Software Engineer / Team Lead – Wuru

JUL 2022 - AUG 2025

 - Developed LLM-powered applications end-to-end — from requirements and architecture to prompt engineering and full-stack implementation — delivering production-ready solutions for enterprise clients.
 - Designed cloud-native architectures on Azure and AWS (Kubernetes, containerized microservices) supporting scalable, reliable deployments.
 - Grew product from concept to 1,000+ monthly active users through iterative development and performance optimization.
 - Led technical discovery sessions with stakeholders to translate business needs into actionable roadmaps and working prototypes.
 - Built data pipeline solutions combining cloud services with modern data stack technologies.
 - Bridged communication between technical teams and business stakeholders across multiple industries.

Technical Solutions Engineer – Media Monks

JUN 2022 - JUL 2022

Migrated data warehouse infrastructure for partnership initiatives, implementing automated validation processes to ensure data quality across integration points. Set up analytics dashboards to support partnership decision-making.

Key Technologies: SQL, BigQuery, DataStudio, Teradata, Postman, Google Analytics

EDUCATION

Bioengineering
